Fuels System

Fuels Customer & Inventory
The Fuels Automated System Enterprise Server (FES), known as 'Hub', is an Automated Information System (AIS) designed to support the Defense Energy Support Center (DESC) and the Military Services in performing their responsibilities in fuel management and distribution.

These web pages provide the capability for users (i.e. buyers, sellers, processors, and managers) to view their data within the central database.

Customer Support
Choose the Fuels Customer Support Questions and other useful information. For more information, you can download [Procedures \(SOP\)](#).

New! User Guide! (PDF format)
The current FAS Base Level User Guide is available for download! You must log on to [Fuels Customer and Inventory](#). Once logged on, press Help from any of the menu options.

FES Main Menu Screen

Defense Energy Support Center

The screenshot shows the FES Main Menu Screen in a Netscape browser window. The title bar reads "Netscape". The menu bar includes "File", "Edit", "View", "Go", "Communicator", and "Help". The toolbar contains icons for Back, Forward, Reload, Home, Search, Netscape, Print, Security, and Stop. The location bar shows the URL: "ub.desc.dla.mil/webtool/servlet/MainServlet?module=St_DodaacManager&SubmitAction=Change". Below the menu bar is a banner with the text "DEFENSE FAS ENTERPRISE SERVER". A red box highlights the top navigation bar which includes links for OLVIMS, Seller information, Buyer information, Support Tables, Utilities, ASKIT, ELoad, STARS-FL, Login, Exit, and Help. The main content area displays the message "FP5209 YOKOTA AB JA Select a DODAAC: FP5209 Go DODAAC Lookup".

NOTE: Users Access to a DoDAAC and ability to perform various functions are directly related to the user's Account, i.e what DoDAAC(s) and permissions are loaded in the user's FES Account. Contact the DES Help Desk if you are unable to access the right DoDAAC or perform the functions your job requires.
